

Lecture 8: Survey of Europe: Summer 1947 (Part 1)

Review and Introduction: In the last lecture, Professor Barrs finished summarizing the lessons which can be gleaned from the Schaeffer's time in St. Louis. He then began to review Francis' trip to Europe during the summer of 1947. This lecture covers seven of nine points regarding that trip. Professor Barrs refers to a summary of Francis' itinerary and samples of his correspondence.
